

DAILY NEVADA STATE JOURNAL

C. C. FOWNING, Editor and Proprietor

LYON WINS.

The Lyon County Times refers to the special election expense bills, saying:

A telegram received from Carson informs us that Judge Rising has decided the case of Lyon County vs. the State of Nevada in favor of the county, with the exception of an item of \$59.90 for Clerk's fees in furnishing to the Sheriff a proclamation for posting in each of the eight precincts of this county. In all other things the Judge decides that the Commissioners were perfectly right in allowing and paying the bills that they did for special election purposes.

Suit was brought in this case to recover \$256.95, the difference between what Lyon county claimed and what the Board of Examiners wished to allow. The item of \$59.90, not allowed, will leave \$197.05 coming to the county, and the State will pay the costs of suit. Lyon county has, of course, expended something for attorneys' fees, but not enough to eat up all of the \$197.05. There will probably be about \$80 coming to us. This is better than losing \$256.95, and it will also be a lesson to other people's business.

In regard to the item of \$59 we will state that Judge Rising has decided the matter strictly according to law. The bill for this amount was making eight copies of the proclamation for the Sheriff to post in each precinct in the county. It has been the custom, in fact, the law provides, that the County Clerk shall do this work in general elections. The special act, however, seems to say that one copy of the election proclamation is to be made out, although it was no doubt the intent of the Legislature to have the work done the same as at a general election. The work was done in good faith by the Clerk and the charge was reasonable. The money was paid and Lyon county will be out that much, but she will not kick at this, for it was evidently an error in interpreting the law. In all other things, it will be seen, our Board of Examiners has come considerably closer to interpreting the law right than has the State Board of Examiners.

A correspondent writing to the Army and Navy Journal has elicited the following interesting facts regarding the promotion of certain well-known army officers of high rank: Major-Generals Howard and Crook and three of the present Brigadier-Generals will reach the age of 64 before Major-General Schofield. Hence if promotion is carried out by seniority, General Miles (the senior Brigadier) will succeed General Schofield in command of the army. Who will succeed General Miles in that position cannot now be said, for before he is retired for age (August 8, 1903) all the present Brigadier-Generals will be retired for age.

The annual report of President Pullman, of the Pullman Palace Car Company, just out, shows assets of approximately \$41,000,000, with liabilities of \$26,000,000, leaving a surplus of about \$15,000,000. The company is now supplying with sleepers 117,854 miles of the 160,000 miles of railroad in the United States, a gain of 11,723 miles during the year. The total number of employees of the company is 11,063, and these received in wages nearly \$6,000,000 during the year.

The New York World has discovered that there are 125 citizens in Gotham with an annual income of a quarter of a million dollars each, and hundreds of firms each doing an annual business of one million or more. Yet two weeks' vigorous drumming for the World's Fair fund netted pledges amounting to one million and a quarter. If New York gets the fair it will be as a gift from Congress, not through the liberality of her citizens.

There is a marked falling off in the number of immigrants arriving in the country, compared with the record of 1898. The arrivals for September aggregated 33,544, or 1,400 less than for September last year. The record for the preceding eight months shows an equally marked decrease, while the character of the arrivals have been considerably improved by the strict enforcement of the immigration laws.

Montana is all right. The final returns show the election of a Republican Legislature, all the Republican State ticket, except the Governor, all the Republican Supreme Court Justices, and six out of the eight District Judges. Mr. Cassidy, of Nevada, has the thanks of all Nevada Republicans for eminent services rendered in the campaign.

The Board of Regents are still in session attending to University matters. The Journal has implicit confidence in the judgment of the Board, and whatever action the Regents may take after sitting into the family trouble at the school, will, the Journal feels satisfied, be completely and wholly in the interest of the University.

The public can not be deceived by Democratic assurances of victory in Ohio and Iowa. Both States are as safely Republican as Nebraska and Dakota.

Chief Justice Fuller and Secretary Blaine were, once fellow-reporters in the Maine Legislatures.

Black Bart has been seen in San Francisco during the past fortnight.

The total pledges for the World's Fair at New York amount to \$2,000,000.

THE PRIVATE SECRETARY.

An Indispensable Help, Even to Society Ladies.

A Washington dispatch says: This is an era of private secretaries. Not only do all public officials of note have private secretaries, but all private individuals in business, as well as even the wives of public men, are securing the services of secretaries.

Mrs. Levy P. Norton has engaged the services of Miss Nellie Hunt as private secretary. Miss Hunt is the daughter of Garfield's Secretary of the Navy, and Arthur's Minister to Russia, who died at the latter post. She is a charming vocalist and a general favorite. Miss Hunt held the position of private secretary to Mrs. Whitney.

THE ELECTIONS TO-DAY.

THE REPUBLICANS CONFIDENT OF WINNING THE FIGHT.

Speculations From Iowa, Ohio, Nebraska and the Others.

In Iowa.

Special to the JOURNAL.
DES MOINES, Iowa, Nov. 4.—The State Register (Rep.) says: Iowa votes to-morrow for Governor and other State officers and for members of the Legislature who will elect a United States Senator to succeed Allison. This last fact has given the campaign some National features. Aside from this the main fight has turned upon prohibition, the Democrats claiming it was failure and Republicans that was to be regarded as the settled policy of the State until the majority of the people demand a change. The campaign has, however, been of much less interest on both sides than usual.

The Ohio Campaign.
Special to the JOURNAL.
CLEVELAND, O., Nov. 4.—In reviewing the political situation the Leader (Republican) will say that the news of action on the part of the National Liquor Dealers taken to elect Campbell has aroused the Republicans. The prospects are for a heavy vote on the Western Reserve, and it means a Republican victory. The Plaindealer (Dem.), will say: "Democrats have made a vigorous fight against great odds, and if they stand by the guns as manfully to-morrow as they have battled thus far they will secure the Governor and Legislature. This will secure the U. S. Senator."

Allison All Right.
Special to the JOURNAL.
SIOUX CITY, Ia., Nov. 4.—George D. Perkins, editor of the Sioux City Journal, in an interview, said he had no doubt of Republican success to-morrow. He does not believe the effort to impair confidence in Senator Hutchinson has succeeded. Hutchinson has been outspoken in support of prohibition, and thus invited whatever antagonism the opponents of this policy can muster. Perkins expects the Republican majority on joint ballot in the Legislature will be increased, rendering certain the re-election of Senator Allison.

The Nebraska Fight.
Special to the JOURNAL.
OMAHA, Nov. 4.—The campaign in this State has been remarkably quiet. The only State offices to be filled are those of Judge of the Supreme Bench and two Regents of the State University. Owing to the dissatisfaction of the anti-monopolists over the defeat of Judge Reese for re-nomination, it is probable that the Republican majority on the head of the ticket will be somewhat reduced.

In Nebraska.
Special to the JOURNAL.
LINCOLN, Neb., Nov. 4.—The Journal says to-night closed the most peaceful campaign Nebraska has known for years. The Republican State Central Committee places the Republican majority to-morrow at 60,000. In the Second Congressional District, Laws (Rep.) will be elected over Hooper (Dem.) by 7,000 to 10,000 majority.

Irrigation Work.
Special to the JOURNAL.
MARTINSVILLE, Cal., Nov. 4.—The news has been received here with much enthusiasm over the sale of the Brown's Valley Irrigation bonds for \$100,000. Work will commence at once as the Directors of the district have settled upon an engineer and will send him into the field this week.

Foraker for Governor.
Special to the JOURNAL.
COLUMBUS, Ohio, Nov. 4.—The Chairman of the Republican Central Committee estimates the Republican plurality to-morrow at between 15,000 and 20,000.

MISTOOK AN "O" FOR AN "A."
Through a Broker's Mistake Oarsman Hanlon Got Actor Hanlon's Money.

Special to the JOURNAL.
NEW YORK, Nov. 4.—Lawyer J. Buck, of No. 206 Broadway, is representing Edward Hanlon, the actor, in a case of mistaken identity, which has a number of intricate and peculiar features. According to Mr. Buck, Edward Hanlon, the oarsman, who figures in the case with the actor, is just at present in a somewhat unpleasant position, owing to somebody's mistake as to their respective identities. In August, 1897, shortly before Hanlon left America to row Beach in Australia, he received a telegram from a New York broker, stating that the latter had \$150 to the credit of the oarsman. The money had come from a London banking house, the American Exchange. The oarsman was at that time expecting a remittance from the London Sportsman, which was defeated by Beach to pay Hanlon's expenses to Australia. He was indebted to the amount of £100 to Editor Busbey, of the Telford and Farm, and telegraphed the broker to pay £100 to Mr. Busbey and forward the remaining £50 to him at Toronto, which was done.

The broker has since failed, and it now appears that the money was intended for Edward Hanlon, the actor. He had exchanged Paris bonds to the extent of £150 at the American Exchange and ordered that the money be sent to him. The forwarding clerk sent the money by mistake to the oarsman in America, and when the actor called for his funds he learned of their misdirection. If the oarsman restores the actor's money all legal proceedings will cease, but should he refuse to, a suit will be brought in the New York courts to recover.

GROFF SETS THE SPIRIT ABOVE THE LETTER OF THE LAW.

The Law Does Not Require That Life and Health Should Be Sacrificed.

Special to the JOURNAL.

WASHINGTON, Nov. 4.—Land Commissioner Groff has made another decision based upon a principle which is intended to make the Commissioner and the policy of the Interior Department popular.

The intent of the settler is given consideration along with the settler's actual accomplishments.

Good faith is a strong argument on the part of the settler.

The decision is in the homestead entry contest of John L. Anderson vs. Mary Meyers, including the southwest quarter of section three, township thirty, range fourteen, west, Nebraska land district.

The decision of the local officers, holding the entry for cancellation on the ground that the defendant had abandoned her claim, is reversed.

Mary Meyers made the entry November 10, 1882, and June 11, 1887, Anderson filed his contest, alleging that the defendant had changed her residence from the land.

Commissioner Groff says in his decision, which is quite lengthy: "It was proved and admitted by the claimant that from December 26, 1886, to June 17, 1887, she was not living on the land, and the question presented for my consideration is, upon the showing made, has the claimant by such absence forfeited her entry?"

"Her good faith in making the entry and in what she has done upon the claim is a very important element and indispensable."

"To determine this it is necessary to inquire into all the circumstances. The testimony shows that the claimant is unmarried and that she was poor. She borrowed the money to go West and at the time of entry she had but \$15. She at first built a small house on the land in the Fall of 1882. In 1883 she succeeded in building a second and better house. She has also built a frame barn, dug a well and a cellar and has about forty acres of land under cultivation. The improvements cost about \$300. The claimant was in poor health and not able to perform much labor. Two reputable physicians certify on oath that she had heart disease and her nervous system was broken down. They further certify that it was unsafe for her to live alone upon her claim. She was not able to earn wages and support herself. She borrowed \$75 of a neighbor to clothe herself. Her brother lived about one mile away and she spent a great portion of her time with him, doing such housework as she could. On the 25th of December, 1886, she went to a married sister, who lived at Alsworth, Neb., to be cared for, and while here she was under a doctor's care. She returned to her brother in February, 1887, and went to her claim a few times in May following, but she was not sufficiently recovered to resume her residence on the land. It is clear that in consequence of sickness and poverty she has been obliged to be away a great deal of the time and I am satisfied that she has lived on the claim as continuously as she was able and as much as was consistent with prudence and safety."

"The law does not require that life and health should be sacrificed to maintain a residence."

"It incidentally appears in the testimony that the defendant has been offered \$1,200 for her claim and refused to take it. There is not a particle of evidence to show that she at any time intended to abandon her claim. Her improvements and her struggle with poverty and with ill health shows her a sufficient good faith, and I think she has shown an entire excuse for her absence."

The decision is reversed and Miss Meyers' entry is held intact.

The School Boy Strike in Scotland.

Special to the JOURNAL.

EDINBURGH, Nov. 4.—The school boy strike has now broken out in this city. Symptoms were evident for two or three days that the agitation had extended to the city, but to-day the movement assumed a practical form when about 100 boys led the van, and being joined by others from the various schools, marched in procession through the streets. They demand free education in all standards, no home lessons and shorter hours. The school authorities will take no notice of the strike, and will leave the parents to deal with the malcontents.

Fatally Injured in a Tennis Game.

Special to the JOURNAL.
CLINTON, N. Y., Nov. 4.—Miss Louise Heyer, who was a society belle of Staten Island, will be buried on Wednesday. About ten days ago, while Miss Heyer was taking part in a game of tennis, she was badly injured by colliding with one of the other players. Miss Heyer was knocked down and stunned, but it was not thought at the time that she had been seriously hurt. A few days afterwards she became seriously ill, and died yesterday morning. Her death was due to internal injuries.

An Explosion.

Special to the JOURNAL.
VICTORIA, B. C., Nov. 4.—News has been received of a fatal explosion at Coal Harbor, Quatsino Sound, Oct. 29th, in the works of the West Vancouver Coal Co., of San Francisco. A man named Bowen, in charge of the company's operations there, had twenty-five pounds of gunpowder underneath his house. This in some way ignited the house. Bowen and an Indian were blown to pieces, the house and two sheds then taking fire. Indians discovered the remains.

Utah's Showing—Powder Explosion—A Blinding Storm—An Old Timer Gone.

UTAH'S CONDITION.

An Encouraging Report from the Governor—He Reproaches the Treasury Department for Removing the Duty on Lead Ores.

Special to the JOURNAL.

WASHINGTON, Nov. 4.—Arthur L. Thomas, Governor of Utah Territory, in his annual report, estimates the population of the Territory at 230,000, an increase of nearly 86,000 since 1880.

During the last nine years the foreign-born population, numbering in 1880 about 8,410, has been increased by Mormon immigration to 16,095.

The aggregate assessed valuation of property of incorporated cities and towns for 1889 was \$30,596,000, with an indebtedness of \$485,000.

Upon the subject of unoccupied public lands, the Governor says the question of what the Government should do with the vast tracts, which can be used only for grazing, is assuming vital importance throughout the West, and is directly associated with the problem of a cheap food supply. Under present conditions these lands are used by persons engaged in stock raising. There is no harmony of interests among them, and there being no protection afforded by law in the use of the lands, there is frequent conflict between clashing interests. The Governor is of the opinion that if the Government would provide a way by which persons engaged in stock-growing could acquire to grazing lands, which can never be used for agricultural purposes, it would remove one of the most serious drawbacks to the growth of the stock industry and a prompt settlement of the country. The grazing and mountain lands of Utah, he says, constitute nearly seven-eighths of the entire area.

The mining industry, the report states, has been generally prosperous. Several new and important developments were made in Park City and other mining camps. "It is the opinion of miners," says the Governor, "that there would be a great increase in the mineral product if it were not for what they believe to be the erroneous construction of the law relative to the admission of lead ores by the Treasury Department."

Overdose of Morphine.

Special to the JOURNAL.
PORTLAND, Or., Nov. 4.—William H. Watkins, an old pioneer of the State, was found dead in his room at the Gilman House to-day. The immediate cause of his death is supposed to be an overdose of morphine, accidentally administered. Deceased was for many years one of the most prominent Democratic politicians of the State. At one time he filled the position of Superintendent of the State Penitentiary and subsequently Chief of Police of Portland. Watkins was prominently connected with the Cronin electoral mudslide at the time President Hayes was elected.

Indian and Mexican Murderers.

Special to the JOURNAL.
TUCSON, A. T., Nov. 4.—A Globe special says it is now definitely known that the Indian prisoners killed Sheriff Reynolds and Deputy Holmes without any assistance from other Indians.

There has been a steady rainfall during the last twelve hours, the surrounding mountains being covered with snow.

Advices from Tombstone say I. White was killed in Skelton Canyon, near the Mexican line. The body showed six bullet wounds. His cabin was robbed of everything. The criminals are supposed to be Mexicans.

Fearful Storms.

Special to the JOURNAL.
ALBUQUERQUE, Nov. 4.—A blinding snow-storm has been raging in the mountains here while in the valley a disastrous sand-storm is prevailing. The storms have raged four days.

More Teachers.

Special to the JOURNAL.
SACRAMENTO, Nov. 4.—Governor Waterman to-day signed nearly 100 life diplomas, granted to various teachers throughout the State by the State Board of Education.

WANTS A DEPUTY

Secretary Proctor Desires an Assistant
Secretary Proctor will renew the recommendation of his predecessors in his forthcoming annual report, that Congress provide for the appointment of an assistant Secretary of War. The department is one of the largest of the Government, and at present whenever the Secretary leaves the city the President designates an Acting Secretary. It thus happens in the latter case that some officers of the army are required to report to a subordinate, and among them there is a feeling that they would rather have a civilian in office.

"Peoples' Theater"—"Davy Crockett."
That "Davy Crockett" has lost none of its attractiveness or that it had not ceased to be a source of profit to its owner, was evidenced by the very large audience which assembled at the Peoples' Theater last evening. Mr. Frank Mayo made fame and fortune with this evergreen play, as he calls it, and made the title part peculiarly his own. He was accorded a generous greeting, and in the scenes that depicted the daring and courage of "Davy Crockett" was applauded to the echo. His support was good. The scenery and mounting was very handsome and effective. New York Star, Nov. 13, 1899.

A HOPEFUL DEMOCRAT.

THE ILLUSION THAT IOWA MAY GO DEMOCRATIC TO-DAY.

Arizona Indians and Mexicans Murdering as They Go.

The Arizona Excitement.

Special to the JOURNAL.

SAN FRANCISCO, Nov. 4.—Up to a late hour this evening no advices have been received at Army Headquarters here with regard to the reported fight this morning of United States troops with Indians near Crittenden, Arizona. General Miles states that the present situation in Arizona, so far as official advices are concerned, is this: Sixteen detachments of cavalry from various posts are out making every effort to intercept and capture the Indian convicts, who overpowered their guard while en route to the Yuma prison last Saturday, killing Sheriff Reynolds and the Deputy Sheriff. Holmes, commanding officer at San Carlos, Arizona, reports all quiet there.

The Iowa Campaign.

Special to the JOURNAL.

DAVENPORT, Ia., Nov. 4.—J. J. Richardson, of Iowa, member of the National Democratic Committee, said this evening that during the past week he had received advices from all parts of Iowa of enough changes being noted, if correspondents were not misinformed, to overcome the majority given Governor Larrabee two years ago. In this part of the State, Richardson said, many Republicans declare they will vote for the Democratic nominee, Boile, on account of his pledged opposition to prohibitory legislation.

Ernest L. Bingham, a former compositor in the Times-Review office, has, during his leisure time in the past year, been devoting himself to the study of stenography. He has already acquired considerable proficiency in the art, and with a little practice will rank as an excellent short-hand writer. Stenography is an interesting study, besides being a lucrative avocation, and it is a wonder that more of our young people do not seek to acquire the knowledge necessary to practice it.—Tuscarora Times-Review.

REVIEWS.

Geo. Russell is in from Elko.
T. B. Riekey was here yesterday.
Larry Derby is out at Winnemucca.
O. Drby was in town Sunday night.
Senator Fley will arrive this morning.
J. F. Dennis, of Battle Mountain, is in town.
The Arcade sale, as reported, was premature.
Sophus Peterson and family are in from Red Rock.
Sunderland has a magnificent stock of goods on hand.
C. Zeigler came down from the Comstock yesterday.
Senator Williams and D. L. Ellis have returned to Carson.
It will take two weeks more to complete the dam at Donner Lake.
Jim Burke was in town yesterday, after an absence of three months.
Mrs. J. O. Sessions has returned home, after an absence of five months.
Dr. Radman has returned from Carson, and will locate permanently at Reno.
Ex-Governor Jewett Adams was in town yesterday morning, on his way to Churchill county, to look after some of his cattle.
Supt. Jerry Whitely, one of the best of the Southern Pacific's Division Superintendents, was up from Wadsworth yesterday.
"Frenchy" arrived from Ogden last night with three running horses for a party of Reno sportsmen, who calculate to beat the record here next year.
Miss Clara E. Miller, sister of Prof. W. McN. Miller, arrived in Reno Saturday night, and will spend the winter in Reno at the home of her brother.
Ig. Stenbort, one of the Managers of the Anglo-Californian Bank, is a passenger on this morning's west-bound train, returning from a trip to the Paris Exposition.
Misses Thalia and Patty Mitchell, of South Briton, Connecticut, consisting of Mrs. R. H. Linday, are visiting Reno relatives, and yesterday, accompanied by Mr. Linday, they went to Virginia City to view the lower levels of the Comstock.
Last week's ore yield of the Comstock mines aggregated 3,874 tons, divided as follows: Con. Cal. & Va., 2,577 tons, assay value, \$28 75 per ton; Yellow Jacket, 455 tons, assay value, \$28 50; Occidental Con., 318 tons, assay value, \$20 50; Justice, 214 tons, assay value, \$28 50; Alta, 310 tons, value, \$30 75. The total bullion yield of the above was about \$95,000.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents per bottle. Feb. 21st-17-ly.

SURVEY OF COUNTY LINES.

A new survey of the boundary line between Douglas and Lyon counties will be made this month. The surveying party will be accompanied by Commissioners from each county.

COUNTY COMMISSIONERS.

Proceedings of the Board Yesterday.

The Board of Commissioners met yesterday pursuant to adjournment. Present

—T. K. Hymers (Chairman), Wm. Merrill, W. P. McLaughlin, Commissioners; T. V. Julius, Clerk; D. Allen, District Attorney; L. J. Flint, Sheriff. The following bills against the county were allowed:

J. F. Aiken, supplies \$13 50
Reno Water Co., water 5 00
W. Sanders, undertaking 15 00

Relief was granted to the following indigent persons: Mrs. Stackpole \$10, Mrs. Jose \$10, Mrs. Anker \$10, E. D. Rodgers and wife \$10, A. Lopes \$10, Mrs. E. B. Towl \$10, Mr. Bingham \$10, Mrs. E. M. Wood \$5.

The matter of consolidating Franktown and Mill Station School Districts will be heard on the third Monday in November, 1889.

SOWING RYE GRASS.

An Experiment Which, if Successful, Will be of Great Benefit.

The Central Nevada says:

Uncle George Crum has sown large quantities of rye grass along the foothills of his ranges in this section, also on certain apparently dry alkali flats, which, he says, having been partially filled with water, are known to be filled with water even in the dry season. The effort is an experiment on Mr. Crum's part, but if successful, will be of great benefit to the country, and it may be possible, that where to-day a stunted growth of greasewood dots the valley, a few years may see a continual wave of rye grass.

The Silver State comments:

Rye grass is indigenous to Nevada. It grows luxuriantly in many places in this county when the whites first came here and its seeds were harvested by the Indians, who used them for food. It flourishes in places remote from water courses as well as near streams, and there is no known reason why the experiment, which is being tried by Mr. Crum should not prove successful. Rye grass, if mowed before the seed and stalks get too ripe, makes nutritious hay, which stock eat with apparent relish.

Held for Forgery.

The Eureka Sentinel says:

J. M. McDonald was committed during the week to the county jail on a charge of forgery, in default of \$1,000 bail. He is in some manner got hold of a Union Pacific check made payable to Jerry Ahern, and by the latter indorsed to Hale Bros. & Co., Sacramento. He substituted his own name for that of Hale Bros. & Co., and then negotiated the check to M. K. Kamy, the dry goods merchant. McDonald, who has been living in Eureka for the past year, is closely related to Dr. McDonald of the Pacific Bank, San Francisco. He has been admitted to the California bar, and when sober and at himself is of more than ordinary brightness, for a lawyer. When in liquor he seems to get considerably off his base, and there may be a question as to whether he is responsible for his act in that condition. The check which he altered was for \$37. He made no defense at the preliminary examination.

Local Mining Sale.

The White Pine News tells this:

A mining sale was consummated in Ely last Saturday. It was not for a large amount, but, nevertheless, it is a straw that indicates a favorable mining breeze has set in for Robinson District. A. L. Tyler, the "B-D" (Bismuth) man, purchased a one-half interest in the Ely, an Ely mine, of Willis Watson, for \$1,000 cash. The claim is as yet little prospect, but is located in the center of the mineral belt and prospects well. Mr. Tyler intends to develop the claim, and we hope that as the first outside purchaser of mining property in this district, Mr. Tyler's venture may turn out as rich a bonanza as the Johnson.

THANKSGIVING DAY.

A Proclamation Issued by the President.

The following Thanksgiving proclamation has been issued by the President:

A highly favored people, mindful of their dependence on the bounty of Divine Providence, should seek a fitting occasion to testify their gratitude and ascribe praise to Him who is the author of their many blessings. It behooves them to look back over the past year, and bless God for his infinite mercy in vouchsafing to our land enduring peace, our people freedom from pestilence and famine, our husbandmen abundant harvests, and to them that labor recompense for their toil.

Now, therefore, I, Benjamin Harrison, President of the United States of America, do earnestly recommend Thursday, the twenty-eighth day of this present month of November, to be set apart as a day of national thanksgiving and prayer, and the people of our country, ceasing from the cares and labors of their working day, shall assemble in their respective places of worship and give thanks to God, who has prospered us on our way and made our paths the paths of peace, beseeching him to bless the day to our present and future good, making it truly one of thanksgiving for each reunited home circle and for the nation at large.

Ranch and Stock for Sale.

Naches, the Pine chief, wants to dispose of his ranch on Big Meadows. It consists of 150 acres, about 100 acres of which are under cultivation. He will sell the land, fifteen horses and ten cows and calves, for \$3,000 in cash.

Notice.

On and after July 19, 1889, George Becker, proprietor of the Reno Soda and Bottling works, will U and deliver in Reno:

Soda, cream and lemon, per doz. \$ 50

Sarsaparilla, per doz. 50

Ginger ale, per doz. 75

Sarsaparilla 1 Lion, per case 75

Pacific bottled beer, per case 3 50

Fredrickburg San Jose beer, per case 3 50

J. Westlake has established himself in the boot and shoe shop formerly occupied by Wm. Hart, opposite the Post office, where he is prepared to do all kinds of stylish work at the lowest prices. Ladies' fine shoes a specialty. Repairing neatly and quickly done.

Go to Lange & Schmitt's for ranges, and cook stoves. Best assortment in the State.

GOLD CALORE.

Wild Excitement in White Pine County.

The Eureka Sentinel publishes the annexed:

Parties just in from Robinson District, White Pine county, report great excitement prevailing over the new gold discoveries there. Nothing like it has been known in Eastern Nevada since the discovery of the marvellously rich mines of Tracacora Hill in 1868. The people of Ely and Ward and Taylor and the surrounding country are simply wild with the gold fever, and nearly all business is deserted in the flight to the gold fields. Even the county officials at Ely have abandoned their desks and gone to digging for the yellow metal. The temptation must indeed be great with a county officer will seize a pick and go to work. It appears from latest accounts that gold is found everywhere over a very considerable area of territory—perhaps two miles long by a mile in width. A great bluff standing up hundreds of feet is found to be made of gold-bearing quartz, worth \$30 to \$50 to the ton. Wagons are backed up to this bluff, filled in a few minutes and driven off to the small gold mill of McGill & Lyons, near by. The richest claim so far as known is owned by Mr. Watson, one of the pioneers of the district. Mr. House, the butcher of Ely, also has another good claim. The Watson claim carries a streak of decomposed quartz about six inches in width, which goes from \$5,000 to \$6,000 to the ton. The rest of his ore is worth \$50 per ton in free gold. In any part of the rich streak \$6 to \$10 to the pan can be hoisted out. The gravel ravine and flats near by are also claimed to show exceedingly rich places.

The discovery of gold in the immediate locality under notice is of recent occurrence. McGill & Lyons had worked a low grade gold ledge with varying success about three miles away. Robinson is an old district, but no one had looked specially for gold. There can be no room for doubt that gold is now found there to an extent that promises to be important—but how important we are not prepared to say. The prospects as far as tested would seem to justify the belief that the new field is both rich and extensive. If these discoveries had been made thousands of miles away the roads would now be lined with pilgrims from every part of the country. We shall be glad if they are as valuable as is claimed for them, because old White Pine stands badly in need of a rejuvenating lift.

COMSTOCK MINING NEWS.

A Smash in Share Values—Nevada Mill Stamps in Motion.

The Virginia Chronicle, of last evening, says:

A smash in the price of Con. Cal. & Va. was the principal feature of to day's transactions in Comstock mining shares, which is undoubtedly due to the failure of the directory to declare a November dividend coupled with the hanging up of the California battery mill stamps. This last mentioned cause will not decrease the bullion yield of the mine below the usual average, however, unless there should be a shrinkage in the flow of the Carson river material enough to cause the hanging up of a portion of the stamps. The Hale & Norcross is shipping 150 tons daily to the mill, which will be handled by the forty stamps. The company did not succeed in leasing the Mexican as the Crown Point company is about to resume ore shipments to that mill. The Santiago with its 38 stamps can be leased, however, if more ore crushing power is required.

The electric power on the Sato Tunnel level of the Chollar incline is furnishing 120-horse power in operating the Nevada mill with only two out of the six motors in operation. To-morrow a third motor will be started to furnish further auxiliary power to that of the surface Pelton wheel in operating the mill to its full capacity.

NEVADA MILL IN OPERATION.

On Saturday forty out of the complement of 60 stamps in the Nevada mill began dropping on Hale & Norcross ore and to-morrow the remaining 20 will be started to crush Chollar ore. The Hale & Norcross is shipping 150 tons daily to the mill, which will be handled by the forty stamps.

The company did not succeed in leasing the Mexican as the Crown Point company is about to resume ore shipments to that mill. The Santiago with its 38 stamps can be leased, however, if more ore crushing power is required.

The electric power on the Sato Tunnel level of the Chollar incline is furnishing 120-horse power in operating the Nevada mill with only two out of the six motors in operation. To-morrow a third motor will be started to furnish further auxiliary power to that of the surface Pelton wheel in operating the mill to its full capacity.

HOSE ROYS.

Monumental Hose Company, No. 6, held a meeting last night, and the following officers were elected for the ensuing term:

William Webster, Chief; N. J. Buckland, Assistant; E. S. Wilson, Foreman; L. J. Hart, First Assistant Foreman; W. V. Dixon, Second Assistant Foreman; W. H. Dauchy, Treasurer; G. B. McFarlin, Secretary; Ed. Murphy, W. Chapman and G. B. McFarlin, Trustees.

Johnny Gammons, who nearly had his right leg cut off a few days ago, is steadily improving, and Dr. Dawson thinks the leg will be almost as good as before.

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt. Every house and store should have them. Call and inspect before purchasing.
